

# Whitmoor Country Club

**These are the guidelines for the golf events.**

**MASKS** - All players please bring a mask to be worn while checking in, while gathering for the shotgun start, and while walking around inside the venue. Masks are not required while playing golf or while seated at your table. Maintain social distance on the putting green, driving range, and at all gatherings.

**GOLF CARTS** – There will be 2 guests per cart. All our golf carts come with a fold down divider. The divider will be deployed. Whoever drives the golf cart first must remain the driver for the duration of play. All carts have been sanitized before the round.

**FLAG STICK** – Do Not remove or touch the flag stick. This removes a common contact point.

**Bunkers** – No rakes will be provided for the sand-traps. This removes a common contact point.

**Coolers** – We will have coolers throughout the course. A volunteer attendant is required to wear **gloves** to hand out product to golfers. Please do not open and reach into a cooler just ask the attendant to provide what you would like.

**Food locations** - If the location on the course is **handing out food**, the **volunteer(s) must wear gloves and a mask**. Please do not open or take from the chaffer just ask the attendant to provide what you would like.

Please follow the guidelines and most of all Have fun
